

STATEMENT FROM THE BOARD

After much prayer and discussion, as a Board we have made the decision to re-open! We will let you know of our re-opening date in coming days while we prepare the centre for opening.

As most would be aware, the Government currently has pretty tight guidelines on how we can operate. With our aim to “encourage families be their best” (as per our mission statement), it is important that we take both your and our safety seriously, whilst complying with government regulations.

We’re very keen to help your family ‘be its best’ and as always offer you support in any way we can to assist you to achieve this. Unfortunately, due to government rules, those aged 16+ who are not double vaccinated cannot enter the centre (huge fines apply if we don’t comply...\$109,000 for business & organisations).

As always, our volunteer team will treat you with love and respect as we serve you in the centre. We ask that you do the same as we all deal with government restrictions.

Over the years, we have loved spending time with all those who have become part of the “FUNKY Family” and look forward to seeing you all very soon!

Regards
FUNKY Hearts Board of Management
